PARIS, July 11.—The situation remained unchanged on the Somme front last night.

The war office statement of today says it has been ascertained that south of the Somme the French in the last two days have taken more than 1,300 prisoners.

On the Verdun front the Germans launched an attack at 4 o'clock this morning on the French positions from Fleury to a point east of Cheneville. They succeeded in penetrating advanced French trenches at some points, but were expelled immediately by a counter attack.

West of the Meuse there was active artillery fighting in the neighborhood of Aycoeur and Chantavout.

The French continue to report satisfactory progress in their great offensive in Picardy. Monday's operations again were confined to the southern echelon which has consolidated and extended its hold upon the northern plateau opposite Peronne.

The outstanding French success of the day was the capture of all the German positions on Hill 97, the highest point of the plateau. The first French rush on Saturday carried them to the western slope of this hill, on which they made good their footing, but their troops, waiting there, had been stopped until adequate preparations permitted an attack on the main building at the summit which the Germans had converted into a small farm residence. It being made with more speed and fewer casualties, they are now in full possession of this height, from which they look into Peronne, 150 feet below.

The result, they claim, from the whole day's fighting is command of the left bank of the Somme from east of Feuilletes to a point opposite Flaucourt, the Germans holding only a few positions on the edge of the river.

This does not mean, French military critics admit, that Peronne can be captured out of hand. The Germans, according to the statements of prisoners, have constructed formidable defenses outside the city, but the French believe that there are not likely to delay the capture when General Foch decides the time is ripe to make it.

French artillery already is beginning to throw a hail of fire around the city. What effect that artillery now has begun is described by an officer attached to a heavy battery on the Somme front, who said:

"Thanks to our aviators we never have been spotted by the enemy's air service since we have been in our present position. Under the conditions our work is excellent. Objects aimed at are smashed with remarkable precision. For example, we have just fired four shells at a bridge more than 14 miles away. Four times the aviation officer who was watching where our 'slippers' arrived, signalled us by wireless the simple word, 'Bridge'."

BRITISH CLAIM GAINS.

LONDON, July 11.—The British, captured Containville on the French front last night, the war office announced today.

Several lines of trenches in Maunet Wood were taken by the British. Heavy fighting continues in Cronet wood.

With the capture by the French of LaMouette hill, which dominates the valley of the Somme and from which everything that happens in Peronne can be observed, one of the primary objects of the Anglo-French offensive has been achieved. The two armies now are engaged in an effort to organize and extend the limits of the ground they have gained and in repelling German counter attacks which are directed particularly against the British to the north of the river, where they succeeded in regaining a footing in the Cronet wood. At other points, however, the British have been able to make progress, although necessarily slow, against well fortified positions.

The Germans on their part are heavily shelling the Allied front from Lens to the Belgian coast, but thus far there have been no attempts at infantry action except for the usual raids in which both sides engaged.

The Russians continue their advance toward Rovel and now are engaged in a pitched battle along the banks of the Stok, which they have crossed at some points. On the rest of the eastern front, while there is continuous fighting at many places, no important change occurred. Both sides are concentrating their efforts on the Lutsik salient, to the east of Rovel.

In the Caucasus and Mesopotamia the fighting between the Turks and the Russians continues with varying results.

Payday on the U. & O.
Today is payday on the West End division of the Baltimore & Ohio railroad. The employees on the Connellsville division will receive their checks tomorrow.

BALTIMORE, July 11.—American navy officers detailed by the Navy Department to determine the status of the German submarine Deutschland went aboard the craft today. Captain Paul Koenig, commander of the Deutschland, was not there to receive them, but they were shown through the vessel by the marlin supported by the North German Lloyd Line, with her commander's permission.

Captain Koenig today made a statement to the customs officials that he expected to get away within 10 days. He had been told that if he remained longer than two weeks the Deutschland's wireless would be sealed up.

WASHINGTON, July 11.—Representations have been made to the State Department by the British and French embassies, setting up the claim that the German merchant submarine Deutschland is potentially a warship, even though designed and used as a merchantman.

The department will take the embassies' views into consideration.

AMSTERDAM, July 11.—Another commercial submarine, the Bremen, constructed by the same company that built the Deutschland, now in an American port, already has left harbor, according to the Berlin Vossische Zeitung.

MOUNT PLEASANT, July 11. Forty members of the Needlework Guild met in the Bank & Trust assembly rooms last evening in response to a call from Burgess J. L. Shields, whom it was decided that the members would meet Thursday afternoon and send for the boys of Company E, now doing duty along the Mexican border.

The women will make night caps and abdominal bandages for the 115 Mount Pleasant boys at the front.

A request has also come for sponges, to be worn inside the hats, but nothing was done to wards supplying this need.

The guild will do its sewing in the armory.

NEW YORK, July 11.—A large increase in the number of deaths and new cases in the epidemic of infantile paralysis was reported today.

During the last 24 hours 195 new cases developed in the five boroughs of New York City, and there were 32 deaths.

This is an increase of more than 100 per cent in the number of deaths resulting from the plague in the 24 hours ending at 10 o'clock this morning compared with the previous 24 hours. In Brooklyn 65 new cases were reported yesterday as against 165 today.

There are now a total of 1,278 cases of infantile paralysis in the greater city. Deaths since the outbreak of the scourge number 270.

ALTOONA, Pa., July 11.—Two cases of infantile paralysis were reported to the health authorities here today, the first in three years.

SPRINGFIELD, Ill., July 11.—Four more cases of infantile paralysis were reported to the state board of health today, bringing the total number of cases in Illinois to 31.

EL PASO, Tex., July 11.—The Second Pennsylvania Infantry and the Tenth Pennsylvania Infantry today were ordered to proceed into the Marathon district, the scene of recent raids by Mexican bandits, for patrol duty. They will leave here as soon as the necessary supplies can be issued, which likely will be tomorrow night.

Marathon was the base of the force which pursued the Glenn Springs raiders last May. It is 90 miles north of Boquillas, which has been mentioned as the objective of the new Villa raid, warning of which was given to Washington by General Carranza.

By O. R. Herwick, Staff Correspondent.
EN ROUTE TO BORDER, July 7.—We are now in the midst of the land of the cactus and sagebrush, and unless some unforeseen delay arises will reach our destination early tomorrow morning. We will go into camp somewhere near El Paso, the exact location not being known to even Colonel Conner. It is rumored we have a five mile hike to the grounds, but this is hardly probable as the temperature there runs up to about 100 to 110 and the men, with all their luggage, could hardly stand such a hike.

We crossed into Texas at 2:50 yesterday afternoon and arrived in Dallas last night at 9:10, where we had our evening hike of about a mile and a half. Dallas is a very pretty city and the boys all enjoyed its beauties for an hour. The thermometer yesterday afternoon hovered around 106 and the boys were pretty well fagged out when they reached Dallas, but when they returned from the hike they were all in high spirits.

The weather today is considerably cooler, we having climbed the mountain to an elevation of over 2,000 feet. We ran into big cattle ranches yesterday and the general appearance of Texas is neat and pretty compared to Oklahoma, where things were pretty much dilapidated. There are some real moving picture scenes in some of the smaller towns, however, where the buildings are all one-story and the largest and best appearing ones.

The roads here are in fine condition and follow the railroad for miles and we had much sport racing with autos, but we generally lost out as the sky is the limit in regard to speed. Autos are plentiful. A youngster on a Texas pony rode along with the train for about an hour and then pulled up in true Buffalo Bill style, walked until the train passed his reviewing point.

The canned beef became spoiled by the excessive heat and was unfit for use today. We are living on hardtack and coffee now, which will have to suffice until tomorrow. We took on about 20 boxes of peaches and oranges at Sweetwater, which were donated by the citizens and much appreciated by the boys. Some of the boxes were taken by different members of the companies and bid for their own individual use, but Quartermaster William Brown of Company D soon rounded up the stolen goods.

Nearly jack rabbits and prairie dogs are seen along the railroad and help to relieve the monotony, which has become severe by this time.

We have run across several people from Pennsylvania, among them being William Jamieson of near Pennsylvania, and Jacob L. Williams of Latrobe.

The soil here in the mountain is red loam and reminds the boys of Mount Gretna. We are to pass through a section of Texas this afternoon where no rain has fallen for 18 months, according to the natives.

The sentiment of the Texas people seems to be general that the only peace solution in Mexico is invasion. They claim peace negotiations with Carranza will only delay the game until while Texas is democratic. They will not support Wilson unless he sees things through to a conclusion while the soldiers are now here.

On afternoon hike today was at Big Spring and the people showed their true western hospitality, taking the boys out for rides in autos and entertaining them in every way possible.

WASHINGTON, July 11.—General Carranza has been notified that negotiations for the settlement of the border difficulties need not await the return of Secretary Lansing from his vacation.

It is expected here that Carranza will propose a formal joint conference rather than informal conversations between Ambassador Arredondo and the State Department. American officials will accede to any plan which assures quick action.

War Department officials have no report upon any discredited rumors of a revolt in the Carranza garrison at Culihuahua City. The Mexican embassy issued a formal denial of the report.

Coal Broker Is Slain.
NEW YORK, July 11.—Christopher Beutlinger, a prominent coal broker with offices in Broadway, was shot to death early today at Caldwell, N. J. Mrs. Margaret Claire Beutlinger, his wife, was arrested and charged with homicide.

**PORTION OF SUBMARINE'S
PRECIOUS CARGO LIKELY
TO REACH CONNELLVILLE**

A portion of the precious cargo which the super-submarine Deutschland brought to this country from Germany is likely to reach Connellsville. In addition to dyestuffs, the Deutschland is also believed to have carried a quantity of drugs, which heretofore have not been available, or else have been substituted by those of American manufacture.

Dr. E. B. Edle is expecting a quantity of both novocaine and salvarsan, and was advised some weeks ago that a consignment of both drugs was expected from Germany in the near future. Dr. Edle believes that the Deutschland brought the drugs over; or that if it did not, the Bremen, ex-

pected within the next few weeks, will have them aboard.

American physicians have been seriously handicapped by the blockade of Germany, which has prevented many drugs from reaching this country. It has been possible to procure salvarsan, which is manufactured by Philadelphia firm The American producer, however, does not compete with the German chemists, and does not market his product when the German article is obtainable.

A Canadian firm is also shipping some salvarsan into this country under another name. The Canadians, however, are not observing any trade agreements with Germany.

UNIONTOWN, July 11.—At the opening of court today Judge J. Q. Van Swearingen handed down opinions and orders in twenty cases which were argued and submitted for decision recently. The cases involved all manner of questions. In some instances the opinions of the court were lengthy; in others they were brief.

A permanent injunction was refused by Judge Van Swearingen in the case instituted by Jasper Martin, Jasper M. Darnell, Dennis I. Martin and Charles N. Martin against the Lowville Express Manufacturing Company, in which an injunction was sought to restrain the defendant company from storing and operating a plant for the manufacture of explosives at the foot of the mountain above Dunbar, near the residences and lands of the plaintiffs. The injunction was refused because in the judgment of the court the character of the explosives was such and the location of the plant was so situated off from the residences of the plaintiffs by hills as not to be unduly dangerous to life or property.

In the case of the United Fire Brick Company against the Fairchance Window Glass Company, which came before the court on exceptions to the report of an auditor, Judge Van Swearingen overruled and dismissed the exceptions and confirmed the report of the auditor.

In a half dozen cases from Brownsville in which the defendants were charged with cruelty to animals, opinions were filed by Judge Van Swearingen. The prosecutions were instituted by Jacob Swearingen, a humane agent. The particular cruelty alleged was that the defendants had worked horses in the mines while the horses were afflicted with sore shoulders. The court found that no substantial cruelty had been inflicted and the defendants were all discharged. It appeared that the humane agent had sent out circular letters to justices of the peace of his community to look out for such cases and thereby make some "easy money." Led the court only allowed him costs in one case instead of six. The court said the facts could have all been determined in one case.

In the case of D. L. Carson, trustee for Kate Carson, against W. H. Cochran, A. J. Cochran and M. B. Moore, which was before the court on a rule to quash a writ of execution, the rule was discharged by Judge Van Swearingen, but the writ was stayed against the estate of W. H. Cochran.

Judge Van Swearingen refused a decree for the cancellation of a sheriff's deed in the case of Frances Johnson Molton against Ella May Johnson and Lawrence L. Johnson. It was alleged by the plaintiff that the defendants had conspired together to force to sheriff's sale a tract of land belonging to the plaintiff in German township and had then persuaded prospective purchasers to stay away from the sale so they could bid it in at a grossly inadequate price. It was held by the court, however, that the evidence did not establish the truth of these allegations.

Judgment for want of a sufficient affidavit was refused by Judge Van Swearingen in the case of the Outcalt Advertising Company against W. H. Fienberg. The plaintiff had recovered judgment against the defendant, before a justice of the peace for the sum of \$93.50.

Three decrees in divorce were granted by Judge Van Swearingen. Elijah DeBolt of Uniontown, was granted a divorce from his wife, continued on Page Three

**SELECTION OF A
FIRE HOUSE SITE
GOES OVER A WEEK****Council Not Ready to Decide
Location of East Side
Department.****ARCH STREET TO BE PAVED****Three Sections Are Decided on and
Bids Will be Separate; Duggan &
Miller Want Adjustment of Price
for Race Street Work; \$50 for Ice.**

City Council met last night and transacted business of a routine nature. The selection of a site for a fire-house was passed over again until next week. The committee, headed by M. B. Pryce, was not ready to report. The absence of Solicitor Higbee was another reason for the postponement. The committee will meet this afternoon and make its final report at next Monday's council meeting.

The mayor's report was accepted, and Mr. Pryce made the fire chief's report. There were four fires in June, with an aggregate loss of \$300.—The other three councilmen made no reports.

Clerk Bixler read a letter from the Woman's Culture Club, asking for contributions to their Milk & Ice Fund. After some discussion, council passed a resolution giving \$30 to the fund. In suggesting a contribution of \$50, Councilman Duggan said, "I think this plan of the ladies is commendable, and we should help along this worthy cause." Thirty dollars will be taken from the contingent fund for the purpose.

It was definitely decided to have the Arch street paving done in three sections. Mr. Duggan had before advocated two ordinances for the paving, because of different conditions along the street, but Solicitor Higbee suggested to him that three would be even better. The first part extends from Church place to Green street, the second from Green to Trump Run, the third from Trump Run to the city line. Bids will be asked for the paving, which will be done on short term bonds.

Council has advertised for bids for the paving of Apple street and Mount-ain alley, but no bids have been received as yet. Bids for the furnishing of 60,000 bricks for the paving of these streets will be advertised for, according to order of council last night.

The contract for the paving of Race street will have to be readjusted. Duggan & Miller, the contractors, claim that conditions have changed so much since the first price was named that a new agreement will have to be made. Councilman Duggan said that of course he could have no part in making the adjustment, as one of the contractors is a member of his family, but he suggested that all the other members of council meet with the firm to adjust the contract. Two other contractors, Mr. Austin and Mr. Dick will probably be asked to be present also. This meeting will take place immediately after next Monday's council session.

The ordinance providing for the paving of East Murphy avenue was passed. This street will be bricked from the end of the present paving, Minor alley, to Main street.

The ordinance providing for accident insurance for the volunteer firemen came up for final passage, but was passed over until a change could be made in the bill. Mr. Pryce's reading said that \$600 should be taken out of the general fund to provide accident insurance, while the intention of council is that this money shall come out of the firemen's relief fund.

The \$285 received from the Con. T. Kennedy shows no license fees was turned over to the firemen.

Dr. M. H. Koehler appeared before council to make some arrangements concerning the curbing and sewers on his South Pittsburg street property. Council authorized the purchase of a new dump wagon for street work. A Studebaker wagon will be bought from Dull & Company of Connellsville at \$125. The only other bid was from a Pittsburg firm at \$125.

Council adjourned to meet next Monday evening. All the members were present last night.

HIGH SCHOOL FOR EVERSON AGITATED BY THE TAXPAYERS

Some Think \$63 a Month Is
Too Much to Pay
Scottdale.

FOUR TEACHERS ARE ELECTED

William McLaughlin Named Principal;
Dressmaking School Is to Start
North Scottdale, Man Falls From a
Ladder of Hay and Breaks an Arm.

Special to The Courier.
SCOTSDALE, July 11.—The Everson School Board held a meeting Saturday and elected William McLaughlin principal of the Everson schools, and Winifred Love, Helen McKinnon and Margaret Kane, teachers. There was much discussion on the subject of Everson through paying \$63 per month to the Scottdale public schools for tuition. The Everson taxpayers think that on a basis of \$63 per month, Everson could have a high school. Agitation has been started to establish a high school in Everson, by several taxpayers. The high school would materially increase the aid given the district by the state.

TALKS ON DRESS.
The Civic Club met in the high school building last evening and Miss M. K. McCormick of Pittsburgh, who has charge of a dressmaking school, gave an excellent address on "Dress—its Use and Abuse." While in town Miss McCormick is the guest of Miss Edna Wray. There will be no more Civic Club meetings until September. Miss McCormick will start a dressmaking school here at an early date for the younger people, and others interested in learning to make their own clothes.

BROAD FORD PAIR WED.
Lola Knox and Newton Sullivan of Broad Ford were united in the holy bonds of matrimony on Saturday July 8, by Rev. S. C. Rutherford at his office in Scottdale.

ENTERTAINING CLASS.
Miss Anna Strohm entertained the Loyal Daughters' Class at her home here. Following a business meeting refreshments were served.

ARM IS BROKEN.
Andy Belansky, who lives back of North Scottdale, while helping haul in hay yesterday, fell from the load and struck a fence, breaking his left arm. He was brought to Dr. W. H. Fetter here who set the arm.

MISCELLANEOUS SHOWER.
Misses Nellie and Clara Kane gave a miscellaneous shower at their South Broadway home last evening for Mrs. Arthur McCloy who was recently married. Sixty guests were present and among the out of town guests were Misses Grace and Helen Hartman of McKeesport; Ora Davidson of Uniontown; Miss Hoss Swartz, Opal Kuhn and Martha Paegge of Mount Pleasant. Many nice presents were received. Following a delightful evening of which music was the feature, refreshments were served. The house was beautifully decorated in yellow daisies, laurel and shamrock.

MISSIONARY MEETING.
The Women's Foreign Missionary Society of the Alverton Methodist Episcopal Church met on Thursday evening at the home of Mrs. William Hefling. The subject of the evening was "Over Sea News." REVENUE BILL PASSES

House Opposes Protective Tariff For the Dye Industry.

By Associated Press.

WASHINGTON, July 11.—The administration's omnibus revenue bill creating a tariff commission, opposing a protective tariff on dyestuffs, repealing present stamp taxes and providing for new taxes on incomes, inheritances and war munitions profits passed the House late yesterday by a vote of 249 to 140.

The amendments adopted cut the salaries of the members of the tariff commission from \$14,000 to \$7,500 annually, struck out the provision under which no member or former member of Congress could serve on the commission and provided a single appropriation of \$300,000 to pay expenses of the commission the first year, instead of the bill's stipulation of continuing appropriations annually of that amount.

BODY IS RECOVERED

That of James McDermott Found in the Monongahela.

The body of James McDermott, Jr., who was drowned in the Monongahela river at Sunshine Sunday, was recovered this morning about 200 feet from where he went down. Funeral Director J. L. Stader took charge of the body and removed it to the home of the mother, Mrs. John McDermott in Uniontown.

Mr. McDermott was assistant mine foreman at Bessemer and had a number of friends in Conneautville and vicinity. Sunday he went to Sunshine to visit relatives and later went in the river to swim. He was drowned about 15 minutes later. Mr. McDermott at one time resided at Dunbar and was a brother-in-law of W. B. Geary, a brother of Mrs. P. J. Walsh of this city.

CLEVELAND, July 11.—The season's heat record was set today when the official thermometer on the street level in the public square reached 97 degrees at noon.

Why

so many Repair Bills

If there's one thing more than another that sours a man against motoring and makes him wish he'd stuck to the horse-and-buggy, it's having to dig down every week or so to pay for some darned thing that has gotten out o' kelter. Correct lubrication will help to keep your car out of the repair shop and your hand out of your purse.

Atlantic Polarine is "correct lubrication" for eight out of ten cars. Under certain conditions, one of the other three principal motor oils—Atlantic "Light," Atlantic "Medium" or Atlantic "Heavy"—may give better results.

But, in all events, at least one of those four oils is the one best suited to your particular needs. Ask your garageman which.

Read up on this subject. We have published a handsome and comprehensive book about lubrication. It is free. Ask your garageman for it. If they cannot supply you drop us a postal and the book will be sent you without charge.

Girl Floods Gully to Splash in Yough Without Proper Attire; Other Sentences.

Special to The Courier.
UNIONTOWN, July 11.—The court today frowned upon the 1916 bathing styles, that of "gold" swimmin' in the costume of Eve without the fig leaf. Miss Leona Franks of Morgantown, entered a plea of guilty, admitting that she went swimming in Conneautville without a bathing suit. The girl was committed to the Pennsylvania Training school at Morgantown.

Frank Riepl, convicted at the last term of court on charges of aggravated assault and battery and unlawful cutting at Maxwell works, was sentenced to one year and three months in the county jail. Judge E. H. Reppert stated that an application for parole would be considered later. Martin Shimon pleaded guilty to carrying concealed weapons at Thompson No. 2. He was sentenced to pay \$75 fine and costs and serve nine months in jail.

John West, a negro attaché of a carnival which visited Conneautville two weeks ago, was sent to the workhouse for nine months and assessed \$75 fine and costs on charges of assault with intent to rob, carrying concealed weapons and wantonly pointing firearms. Charles Banka was directed to pay the costs and Mary Banka was discharged on charges of larceny of two chickens, valued at \$2, at Republic. The costs in the case amount to about \$50.

Joseph Perkins admitted taking a horse and buggy from the rear of a Main street store and driving to Conneautville. He was sentenced to serve six months in jail.

Norman Robinson pleaded guilty to assault and battery on person and larceny in East Main street. Norman said that the foreigner made remarks about his wife and he hit him. Robinson was sentenced to pay the costs.

Son is Born.

Mr. and Mrs. Ralph W. McCormick of Chicago, formerly of Conneautville, are the proud parents of a son, born last Saturday. The new arrival is a grandson of Mr. and Mrs. William McCormick of this city and is the first boy in the family, the other child being a daughter, four years old. Mrs. McCormick was formerly Miss Mary Buttermore of this city.

Has a New Car.

State Senator W. B. Crow motored from Uniontown in his new National "12" yesterday, accompanied by Fred Close of the Keystone Garage of that place. The senator paid a few business calls and held an informal hand-shaking reception along Main street for the better part of an hour.

Letter For Minor.

Chief Rottler has received a letter for James B. Minor, addressed to Conneautville in care of the police chief. Minor can have the letter by applying at the city hall.

South Brownsville Grows.

The census taken of South Brownsville by the order of the borough council shows a population of 5,377, a gain of 2,110 since 1910.

The only other papers in this section are the Connelville Standard and the Connelville Standard. Advertising rates on a publication.

TUESDAY EVENING, JULY 11, 1916.

THE TENTH SHOWS THEM.

The Tenth regiment was practically the only national guard regiment arriving at the Mexican border within a lot of companies to register about the alleged hardship of their journey westward. The recruits from the eastern cities and states complained more or less during the entire trip. Perhaps they were not wholly to blame. They may have been coddled into molasses. Certain it is that the most trivial matters formed the basis of their complaints. Mother never raised her boys to be soldiers, but Uncle Sam will show them how to be men. The Tenth regiment boys had some advantage over the others. They were trained with men who had seen service and who impressed upon their minds the fact that soldiering was something more than a picnic.

The forebodingness of Colonel Coulter in instructing his men how to conserve their rations is strikingly shown by the fact that the Tenth arrived at El Paso with a full day's rations to spare. Philadelphia regiments ran out of rations at Kansas City and the whole country was filled with their complaints about the unpreparedness of the government in sending troops out inadequately rationed. The truth is that every Pennsylvania guardsman was given exactly the same ration when leaving Mount Gretna as were the boys of the Tenth. That they reached their destination with a full day's rations unaccounted shows that they know the difference between a troop movement for active service and a picnic excursion.

The members of the Tenth have learned that the soldier's first lesson is to take care of himself without complaining and we make no doubt they will with equal facility learn every other lesson the present duty may require.

VAIN EFFORTS.

Some of the Democratic organs, driven to the last extremity to manufacture campaign material, are vainly trying to make political capital out of the selection of the Republican presidential electors in Pennsylvania. Their choice having been strictly after the manner provided by the uniform primary laws, the Democrats are disposed to ascribing to some of them as "intriguing men" and to others as "penance supporters." These are designations which exist only in the troubled imaginations of very much distressed Democrats who, having been so long accustomed to irreconcilable divisions and factions in their own ranks, have acquired the habit of speaking in terms of dissension and dissension.

Unhappily for the Democrats, but most happily for the country at large, the Republicans this year know no divisions, no cliques, no dissension. With one mind, one purpose and one leadership they are moving forward to the greatest achievement in the party's history, that of redeeming the land from the blight of Democratic rule.

The 57 varieties of Democratic faction realize the hopelessness of their strivings to perpetuate strife within the Republican ranks, but they must have something to talk about.

WINNING MEXICO.

President Wilson advises the World's Salesmanship Congress to win the confidence of Mexico by fair dealing. Good advice, but slightly impractical. Mexico is today a war-torn country with no government and no business. She has plenty to sell, and who wants to buy. But few Americans care to take the risk involved in the transaction. The President is perfectly willing for us to deal with Mexico, but is unwilling to afford that protection to American trade that every nation offers its people.

It is a neat campaign phrase to refer to those who have investments in Mexico as "exploiters." Men with millions planted there when American capital was welcome naturally wish a return to stable conditions. What they have spent in development has been largely wasted. Profits would mean a matter of years. Meanwhile, neither their property nor the lives of their employees are safe.

When President Wilson shall have brought to Mexico a semblance of order and a guarantee of safety to Americans, it will be time enough to talk of winning the confidence of the country through merchandising.

Tas President has taken, at one time or another, all sides of the Mexican problem, and for the present he seems to have extricated himself from what appeared to be a certain war. Just how far the country's honor has been humbled through this last proceeding remains to be developed.

PICNIC AT HOME.

There is a feeling among a large number of persons, some of whom are merchants and others who are not, that the annual picnic of the merchants' association should be held at home, but it is regretfully agreed that we do not have an up-to-date picnic ground for the thousands and thousands of picnickers, both young and old, in Connelville's suburbs.

That we do not have such a place available and equipped for summer outings is somewhat to the discredit of the community, and it is largely because of lack of effort to provide it. We have within easy reach of the city many places which could be fitted up for picnic purposes which in time would become as desirable and attractive in every way as the parks which draw annual crowds to other towns more or less remote from Connelville.

Through cooperation with the West Penn Railways it certainly would be entirely practicable to create a home picnic ground of such area, desirability of location and natural advantages as the local associations, bodies and societies and family groups would have no occasion to go elsewhere for a thoroughly enjoyable summer day's outing. Live towns in other sections have provided local recreation grounds of this character which also serve to draw visitors from outlying communities just as Oakford and other parks now draw patronage from Connelville and elsewhere. These grounds have not sprung into full development in a single year, but from time to time improvements have been made until the result is a complete and modern recreation establishment.

Connelville ought to be alive to its opportunities in this direction if for no other purpose than to keep step with other progressive cities and towns and to foster the growth and enlargement of every local interest.

We are urged to buy at home; we ought also to picnic at home.

MEXICO AND THE MILITIA.

The home guards are still drilling, but the new Pennsylvania National Guard will not be organized, it is reported, until the guardsmen return from Mexico.

This announcement indicates that the authorities do not think the Mexican trouble will be serious or of long duration. That is what most keen observers think. Nevertheless, the men who fared forth, dropping all other business and concerns, must be given credit for being patriotic citizens, and if they are really not needed they will be permitted an opportunity of retiring with honor in due season.

In the meantime there is no reason why the home guards should not continue to drill and the whole country prepare for war.

On July 3rd, next, Charles Evans Hughes will be advised that he is the hope of the Republican party, after which time the far will begin to fix. Candidate Hughes has demonstrated his forcefulness as well as his fitness. It is an example of political preparedness which gladdens the hearts of the old campaigner. He is the Sudden Jim of national politics.

The South Side Sargents stole the boys' ice cream. This a majoring. It ought to be a movie story.

West Penn operators find it difficult to keep some classes of thrifty passengers from jumping off for their home localities. Their train is in compliance but the press will continue to regard it as a duty to impose it upon the minds of those misguided people that it is better to lose one leg than to risk the jump.

The South American republics are getting ready to fuss.

The Deutschland has broken the blockade and raised another batch of diplomatic questions for the Wilson administration to worry about.

Colonel Dick Coulter is a disciplinarian.

The German submersible is a small ship, but she carried a cargo valued at a million dollars with a crew of 30 men. The German head for business is not so thick as it has been painted.

The damming of the Youth has been damned again.

State Highway Commissioner Black put out his foot upon the Uniontown Hill Climbing Contest which is a polite name for the annual appropriation of the National Pike as a race track by enterprising county seat promoters of sporting events.

The longer the ballot the shorter the interest in it.

The quantity and quality of Protection offered by the Democratic Ticket will bear investigation.

The regular Sunday automobile smash occurred on the Trotter road.

The Germans may have been pushed back in the east and the west, but it is well to remember that they are still occupying a portion of Russia on the east and a section of France on the west. They have not yet been pushed back into their own country.

The Federal Government has mobilized the Pennsylvania National Guard, 12,700 strong, on the Mexican border at a cost of \$2,500,000. This war business is expensive.

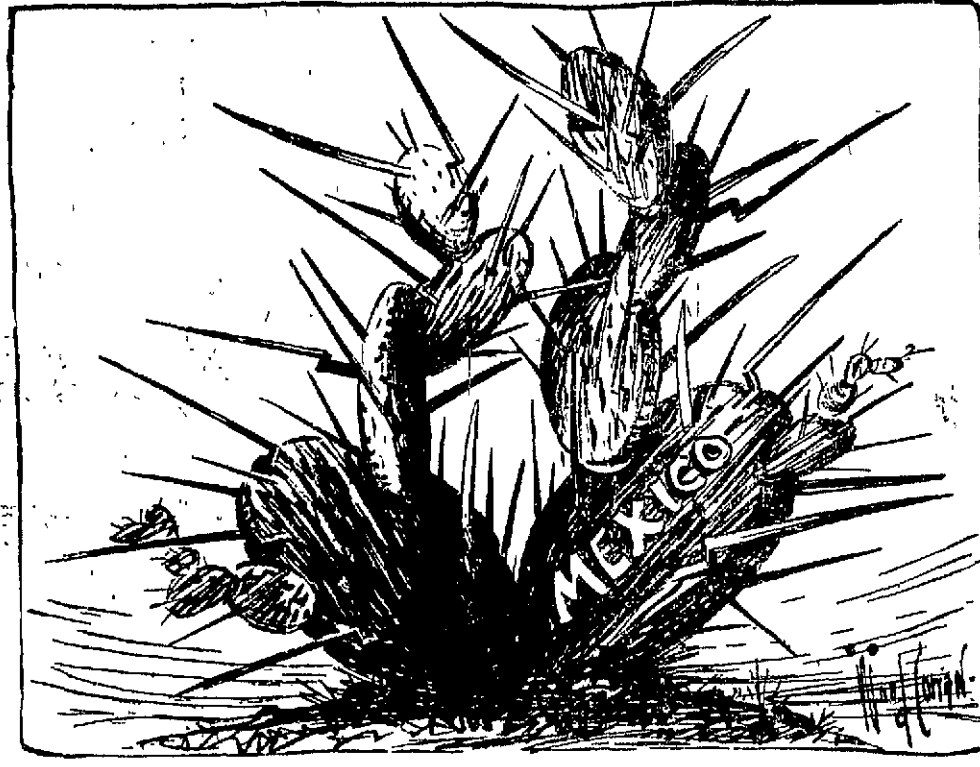

Germany has lost 3,000,000 men in the war up to this time. It is no wonder rumors are now and then heard that Germany would like to have peace.

The good old summer time has arrived. Things are getting ripe. Snakes stories are six feet long and bass tues 10 inches deep on the bar.

The report that the Tenth regiment boys are getting acclimated is no doubt true in a limited sense.

Come listen to the band!

There is an exodus of Elks to Baltimore this week to see the Big Elk and German Water Wagon. There are several men to be seen.

Order to have assurance of a good teaching corps when the fall season begins.

If the reorganization of the Baltimore & Ohio railroad was intended to make all the good men vice presidents, it looks that way. It has missed Edward A. Peck, General Superintendent of the Pittsburgh grand division. The B. & O. should by all means have a vice president who is not a better vice president than Peck. This particular Peck represents hundreds of energy, barrels of efficiency and tons of traffic.

Fishing.

By GEORGE FITCH.
Author of "At Good Old Sitawet."

Fishing is one of man's most fascinating methods of letting time go on as it darts, glances.

A man who fishes is a man who has two hours or two weeks which he doesn't need. So he throws them in the river.

The object of fishing is to catch something. This is not hard to do. The man who cannot catch malaria while fishing or thunder after returning home is no fisherman at all.

However, the most satisfactory thing to catch while fishing is not. This is because fish in the most difficult thing to catch. Only a man with great patience can catch a fish. He must wait until the fish gets ready to be caught like a merchant who doesn't advertise.

An impatient man would dam a river, spring the water, and catch the fish by the tail. But this is not considered good ethics in fishing.

Impatient men have no business fishing, but should stick to business. Some people regard fishing as an exercise. These people take 500 yards of implements and travel 100 miles north, where they spend 10 days wading streams and trying to drop an artificial fly into the mouth of a trout at forty rods with a patient rod.

Others regard fishing as a rest. Men of this kind take a day off, hire a boat and sit in it all day long, using a boat.

Fishing develops patience, shade of a straw hat, soaking anglet worms in the river and making themselves in preservatives until the mosquitoes fly sideways as they leave them with a full cry.

Still others regard fishing as an excuse. It is useless to offer a fisherman of this sort a job because he is already busy as he wants to be.

Fishing develops patience and emotion. The fisher to think grand and solemn thoughts when the mosquitoes are not bothering him. However, it is not wise to fish much before the age of 40. Men who begin to fish early develop too much patience. Some of them are still waiting at 80 for good luck to come along and haul them to prosperity by one leap.

Catching fish is largely a matter of luck. But talking about this is a matter of imagination. The best fishes men hardly ever catch are the ones that are still alive at the time they are killed. It is the foundation of a successful career as a prize angler.

Groceries Sent Everywhere Free Delivery

We have not for some time said very much to you about our grocery stores, and are not going to say very much now, but it is a well-known fact that the Union Supply Company grocery stores are superior. The quality of the goods we sell; the reasonable prices; the great variety of goods; and the prompt delivery to all points in the coke region are great inducements for you to trade with us. Remember we operate sixty-three stores in Fayette and Westmoreland counties, every one of them would be classed a big business. Just stop to think what sixty-three large grocery stores mean—many carload shipments daily of all the necessary staple foods. This means fresh goods all the time. We never have any old stock. Our great trouble is to keep the stock up—get enough goods.

One of the popular articles in our grocery departments is our great stock of breakfast foods; others are the choice lines of coffee and tea, the large variety of canned fruits, the popular line of soaps for toilet, laundry and other purposes, the large collection of preserves and jellies put up in glass jars, imported and domestic cheese. It would be hard to enumerate or tell you about all the different lines of goods. We always have new potatoes, fresh butter, fresh eggs, a very choice line of pure olive oil, apple cider vinegar, ice cream salt, baking powders. There is nothing in the grocery line, either domestic or imported, fancy or staple goods, that we have not got. We can save you money. Try us.

Pushing the Quick Sellers

Retailers favor newspaper advertised brands because they are quick sellers.

The advertising creates a quick, definite and sure demand.

They feel it at their counters and they naturally show the goods people want to see.

They put them in the window and on the counter at the time the advertising is running.

Quick sellers are profitable because they keep capital at work.

They make the stock turn over rapidly and in the turn over is a larger gross business and a satisfactory balance sheet.

CAMPAIGN WHISKERS

The statesman Hughes, as all men know, lets his afloat always grow; no richer growth has been produced, and the robins come to roost. And Fairbanks, too, who hopes to win, has ballast on his shapely chin, and Marshall wears a long mustache, to strain his soup and corn beef hash. But there is comfort in this thought. There are no sideboards in the lot. More proudly would our banner wave, if all the candidates would shave, for whiskers indicate a mind unfitted for a statesman's grand. I greatly fear one can't command the confidence of this broad land, or reach the people's trusting heart, if whiskers have a place or part. Yet there is solace in this hunch: There are no sideboards in the bunch. I'd view this summer's thrilling fight with more of rapture and delight if all the candidates would go to barbershops, where artists mow the splash off for fifteen cents, and make men look like human beings. I cannot whop for those who wear a package of ingrowing hair. Yet this one fact must be allowed: There are no sideboards in the crowd.

Little Talks—Big Bargains—Great Values—Incomparable Prices

Most gigantic clearance sale starts tomorrow—Wednesday—at 9 o'clock. Our record-breaking business for the half year past has left in its wake extraordinary accumulations of all kinds of most wanted merchandise amounting to thousands and thousands of dollars, which must be sold now at a fraction of their worth, as quick clearance is the object of this sale and broad and sweeping price reductions will do it. Read every item and come, as in many instances you can't begin to even get the faintest idea of the real bargains, if you judge solely by the ridiculous price at which it is offered.

The clean-cut, decisive price reductions; the honest, truthful values presented; the absolute assurance of dependable quality in all the goods offered, and the genuine economies presented—these are factors which combine to make our clearances far more important than ordinary sales.

Every inch of "THE BIG STORE'S" selling space is occupied by some especially attractive underpriced article, that spells S-A-V-I-N-G-S for you.

In addition to the extraordinary values, we will give United Profit Sharing Coupons with each purchase.

CALLED TO MONTPELIER

Mrs. Louis Costa and daughter, Miss Lucy, of Dickerson Run, arrived home Saturday from Montpelier, Vt., where they were summoned by the sudden death of Mrs. Costa's brother, Angelo Lamberte. Mr. Lamberte died Monday, June 19 from hemorrhages caused from the extraction of several of his teeth. Funeral services were held the following Wednesday afternoon and were attended by a large gathering of relatives and friends. Mr. Lamberte was born 55 years ago near the borderland of Switzerland and for the past 20 years had resided at Montpelier, being employed at a large granite works. Deceased was highly respected by his own countrymen as well as his wide circle of American friends. In addition to his widow he is survived by the following sons, F. A. Lamberte, a lieutenant in the army; Altilio Lamberte, a sculptor; Americo V. Lamberte, Leonard Lamberte and John Lamberte. Mrs. Costa had not seen her brother for 35 years and despite her hurried trip to Montpelier, he was dead when she arrived there.

In less than three months death has claimed two of Mrs. Costa's brothers. Five of her nephews have lost their lives in the European War. During the funeral of Mr. Lamberte the granite works where he was employed was closed.

It was Mrs. Costa's first visit to Montpelier and before returning home she and her daughter visited many places of interest in Montpelier and Burke. Among them were the granite cave at Burke which in some places is 250 feet deep, the Star Granite Company's works at Burke, and Admiral Dewey's birthplace at Montpelier. Mrs. Costa met many of her own country people whom she had not seen for years.

"Weeds Used in Medicine." is the title of a very interesting pamphlet recently circulated by the United States Department of Agriculture. It illustrates and describes the medicinal qualities of roots, leaves and flowers of our most common weeds, and the nature's remedies for disease. From the roots and herbs of the field Lydia E. Pinkham's Vegetable Compound was originated more than 40 years ago, and the demand for it has increased until it is now recognized as the standard remedy for female ills.—Adv.

"IT SAVED MY LIFE" DECLARED MRS. F. BENNETT

Pittsburg Woman Now Attributes Her Recovery to Master Medicine.

"This Tanlac has relieved me of that dreadful catarrh," said Mrs. Florence Bennett, residing at 429 Atwood street, Pittsburg, Pa., recently, "and I now feel like an entirely new woman. I had catarrh of the stomach and head. My head was all stopped up, feeling full and sore most of the time. I am certain that I swallowed the accumulations in my throat when I slept at night, as I never had any appetite for breakfast."

"I was in a terrible debilitated condition, too. It seemed that I had almost no blood circulation. I suffered intensely from headaches, and my sleep never was sound and restful. I was nervous and languid and lacked energy. I positively declare that my housework had become a real drudgery."

"One day recently a friend said to me, 'Why don't you try this new Tanlac?' I knew of persons it had helped and it may prove beneficial to you. I decided to try Tanlac and obtained a bottle of the medicine. After taking a few doses I noticed much improvement in my condition."

"My head became clearer and I noticed that my catarrh was fast disappearing. My appetite became so ravenous that it was difficult to satisfy it. I began sleeping peacefully and my sleep is now restful and beneficial. I have gained strength and weight rapidly. My headaches have gone, and the circulation of my blood is now normal."

"That languid, listless, tired-all-the-time feeling has left me, and my housework has become a pleasure rather than a duty. I am sold in Connellsville exclusively by the Connellsville Drug Company where the premier preparation can now be had."

Tanlac can also be secured in Dunbar at D. C. Eason's Drug Store.—Adv.

At the Theatres

SOISSON THEATRE.

"HER BITTER CUP."—The well known actress, Cleo Madison, appears at the Soisson Theatre today in the five reel drama, "Her Bitter Cup." It is the story of a child of poverty who lives only to fight the battles of those weaker than herself. Her particular enemy is a factory owner who oppresses his workers to a frightful degree. To gain her ends she goes with his son. After a year she throws him off and then to further her revengeful ends marries the second son. She uses her money for the poor and when her husband rebels she tells him who never loved him and only married her to avenge her people. See the rest of this interesting story today. "Pirates of the Air," a two reel comedy of the sensational kind with Alice Howell and Fatty Voss. Alice appears as a waitress and what she has to suffer to earn her three dollars a week is enough to bring tears to the eyes of a sphinx. Through it all she clings to her little boy under the chin and to her parent which in the end saves her life. "God and the Baby" is a Big-U drama. A man needs money to take his baby to another climate and fate provides the money. Animated Weekly, No. 26 contains "Answering Country's Call." Where "Mildred is going." "30,000 Ask Preparedness" and many others. Tomorrow Harry Carey appears in the five reel "Bluebird" feature. "The Three Godfathers."

GLOBE THEATRE.

"WILDFLOWER."—A five-part Paramount attraction presenting Marguerite Clark, the charming actress is the attraction today at the Globe "Wildflower" is one of Miss Clark's greatest successes and persons who have seen the irresistible little actress will undoubtedly witness the performance again. The scenic effects are marked features of the picture which gives Miss Clark great opportunities to display her ability as an actress. She is ably supported by Harold Lockwood, a popular Paramount actor. Tomorrow Lillian West, Frank Mayo and others will be seen in "A Child of Fortune." Janet Orinaby's automobile scares the horse of David Carson, a young practitioner. That evening she insists on riding her sweetheart's horse and is thrown off. Carson returning home stops the runaway and helps Janet to her feet. For a lark she pretends to be hurt and he takes her home. Coming to see the patient a few days later he finds her entertaining friends from the city. She takes him and her sweetheart for an automobile ride to the seashore, and tossing her ring into the sea, dunes them to recover it. The young man plunges in. Carson turns his back on Janet and walks off, but soon returns on hearing the cry of the boy who is drowning. He rescues the lad and resuscitates him. Next day Janet goes to his home to plead with him; but he has gone to the city to take up his work among the poor. Janet and Carson later become reconciled and are married. Thursday "The Inner Glow," a Vitagraph feature, presenting Mary Maurice and Charles Kent will be shown. Friday John Barrymore will appear in "The Red Widow."

ARCADE THEATRE.

"THE PRIMAL LURE."—Can a woman find that she still loves a man who has wrongfully accused and publicly humiliated her, when she discovers that the man really believes her guilty? This is a problem that gives a new and tense turn to the love interest in "The Primal Lure," new Triangle play starring W. S. Hart, at the Arcade Theatre today. Any woman who has endured the lash of a cruel and unjust accusation will sympathize with "Lois Le Moyne," the youthful heroine in this play of the far Northwest. Seeking to leave a little girl, the work of her own hands, in the desk of the man whom she shyly and secretly loves, she is seized by that man, as a thief, dragged through the settlement, and thrust into prison before the eyes of everyone who knows. Her revenge comes. The man who has misjudged her is in his turn publicly humiliated, and bears a bitter burden. But despite his mistakes, he is made of the stuff of which heroes are molded, and in time of desperate peril he offers his life for the girl. Then—does she still care for him? At first she thinks she does not, but when he tells her that she has come to occupy his heart and mind, to the exclusion of all other women—she finds that she must forgive him, and go to him, or else drive herself of her greatest happiness in life. The picture contains thrilling portrayals of the defense of a border post against an Indian attack, a fight with knives under water between Hart and an Indian, and remarkable snow-storm effects.

Band That Delighted All New York to Be Heard Here the Fifth Day of the Chautauqua

NEW YORK CITY CONCERT BAND.

Refresh from New York, the home of all that is best and newest in music and entertainment, comes the New York City Concert Band, which will be heard on the fifth day of the Chautauqua. Few bands have created a wider sensation in America's largest city than this talented organization, under the leadership of Giovanni Battista, and the glittering array of melodies that won for the band its reputation there will be heard at the Chautauqua. The program will include solos, duets, quartets and sextets, with band accompaniment, as well as pleasing ensemble numbers, all rendered in the brilliant manner characteristic of Italian Bands. While popular in character, the program will offer many classic operatic gems, the repertoire being practically unlimited. The New York City Concert Band will be heard twice on the fifth day, affording those who like the best in band music two excellent opportunities to enjoy it.

MODERN SCIENCE FINDS A NEW METHOD

How Nerve Insulation Stops Inflammation and Eczema, Sunburn and All Skin Diseases Yield to Remarkable Skin Discovery.

The nerves of your body are like electric wires. They carry the nerve energy (neuro-electricity) which is generated in the brain, to all the cells and tissues. The nerve sheaths are insulated to resist a current of about 1/1000 of a volt as has been proven with the aid of Lord Kelvin's galvanometer, an instrument so sensitive and accurate that for the first time it is now possible to measure the strength of nerve currents. It has been found that wherever acute inflammation occurs the insulation of the nerves is broken down, making it difficult, and often impossible, for nature to heal the surrounding cells. Germs cannot live in healthy tissue; it is only through damaged cells that they thrive and spread. Obviously, therefore, the right way to successfully treat inflammatory disease is to quickly repair the damaged insulation and enable nature to restore the diseased tissue to a healthy condition. Ion-o-lex Unguent does this. Ion-o-lex Unguent is not a drug. It does not contain opiates or narcotics. Its action is entirely mechanical. Applied externally, it penetrates the tissues and surrounds the injured nerve sheaths with an insulating bath. Then the inflammation subsides and nature quickly repairs the nerve lesions—your are well. Don't suffer another minute, just go to A. A. Clarke and get a large jar of Ion-o-lex Unguent. It costs little, use as directed and if you cannot say that it is the greatest means ever devised for conquering inflammation wherever it exists, your money will be cheerfully returned without a question.—Adv.

RECORD BASEBALL SEASON FOR ALIBIS

Veteran Players Snicker Over Explanations of Stars.

ONE CIRCUIT MAY QUIT.

Trouble With Mexico Apt to Put the Texas League Out of Business. Scout McCann Boasts Rodriguez, Connie Mack Is Reconstructing.

This season in baseball will establish at least one record—that for little for poor hitting. There has been a flood of alleged explanations for failure to locate the elusive pill, and some of them make old time ball players snicker.

At the Polo grounds in New York some of the Giants have declared that they could not hit because there were too many shadows. Certain Yankees, Frank Baker among them, have objected to the presence of fans in the center field bleachers. They have alleged they could not see the ball against the background of white skirts, shirts and hats. At Boston the Braves have solemnly asserted that the field is too big for hitting. At Philadelphia visiting clubs have protested that the field is too small for hitting.

No wonder players of other days laugh at the excuses of the high-salaried performers of the present. The shadow of Cogan's bluff has hung over the Polo grounds every afternoon these many years. The fans have gathered in the center field bleachers these many years. New York batsmen have hit up some splendid records at the Polo grounds these many years—even since the modern stadium was constructed.

Ball players become more temperamental with the passing of each season. The theatrical spirit is getting the better of the old athletic spirit. Truly good ball players should accept conditions as they are and make the best of them. For if shadows affect one man they affect all the others. Also bleachers were made for fans to sit in. Alibis, after all, do not show in the averages. One kick with the bat is worth a thousand with the tongue.

War and Baseball.

War with Mexico would have considerable effect on professional baseball, especially in some of the minor leagues in the south. It is not likely that it would hurt the big leagues to a serious extent. One circuit that it undoubtedly will knock out of business is the Texas league, which took the count at the time of the Spanish-American war.

When the news that war had been declared on Spain hit San Antonio the fans rushed out on the field, and baseball was over for the season. They turned the field into a training ground for recruits. The war excitement spread through the whole circuit, and it had to shut down.

War with Mexico would be much closer to home for the Texas league than was the unpleasantness of 1903. The Texans feel very strongly against their neighbors across the Rio Grande, and Texas would have little time for baseball while the task of cleaning up Carranza & Co. was in progress.

A Boost For Rodriguez.

Gene McCann, former Brooklyn pitcher, Yankee scout and Jersey City manager, declared the other day in New London that in Joe Rodriguez he had a first baseman who excelled even Hal Chase at his best. McCann is managing the New London club of the Eastern league, and he borrowed the Cuban word, from John McGraw.

"Rodriguez makes that ball do tricks, and he holds better than Chase in his prime. He is hitting .300 in this league, but I am not sure that he could hit his league batting. But for fielding he's unbeatable," asserted Gene. McCann also said that Bud Weiser, the outfielder whom he got for nothing from the Phillies and who was lending the league to hitting, was being watched by a lot of scouts. Bunney Hoare, former Giant pitcher, is the best slugger in the circuit.

Mack Is Reconstructing.

Connie Mack has begun his work of reconstruction in earnest. He has no hesitation in changing his lineup with every game and is giving his college stars tryouts just as soon as they reach camp.

Lanning, the Wesleyan pitcher, is being used in the outfield to take the place of Rube Oldring, who quit for good July 1. Lanning has been making good both at bat and in the field. Rowe, the University of Maine third sacker, is also doing well.

Mack is a wonder for digging them up. Harry Sparrow tried to sign a college star not far from New York some time ago and learned that Mack had tied the kid up "when he was about six years old."

WALTER JOHNSON EFFECTIVE.

Strikes Out Three on Nine Pitched Balls.

Just how effective Walter Johnson can be when the real pinch arrives was demonstrated a few days ago against Cleveland, when the speed king set a mark which may be equaled in days to come, but can never be surpassed. With Cleveland runners on second and third and no one out, Johnson fanned Speaker, Smith and Grindle on nine pitched balls.

Years ago, with the pitcher's box fifty-five feet from the batter and when a pitcher could stroll all over the diamond before pitching, Ames Russe fanned three men on ten pitched balls.

The Rise of Smith.

Olmer Smith, outfielder for the Indians, once was the target for knockers. Now he's a town hero. When Smith joined the club last fall he looked very green. The "wise ones" dubbed him a silver. But Smith learned quickly.

He put in the bulk of his leisure since he joined the team in studying how the big leaguers perform. Smith has developed so quickly that Lee Fohl, the managerial person, claims he soon will rank among the best gardeners in the game.

FANS 27 MEN AND ALLOWS ONLY 1 RUN IN 23 INNINGS.

Pitching a double header against Cleveland at Ovington, the Ovington team of the Kitty league allowed but one run and struck out twenty-seven men in twenty-three innings of play. Twelve hits were made off his delivery.

Roberts won the first game, which was played in the regulation nine innings, 1 to 0. The second game, of fourteen innings, he lost by the same score. Later Roberts pitched two games against Henderson without being scored upon.

JAPAN AFTER TENNIS HONORS.

Will Send Two Stars to Compete in American Championships.

For the first time in the history of international lawn tennis the far east will make a bid for premier honors this autumn when the Japanese racket stars, K. Kumagata and H. Mikami, appear in the American championship tournament at Forest Hills, N. Y., late in August. These two leading tennis players of the orient are already on their way to this country for a three months' campaign on the United States courts, and their invasion will be awaited with great interest by all followers of tennis, since their records indicate that both play a game which ranks them with the leading tennis experts of this country.

While the complete itinerary of the Japanese players will not be known until they reach the Pacific coast, it is certain that they will proceed eastward by easy stages, playing at the leading clubs in exhibition and tournament matches as the occasion offers. San Francisco, Los Angeles, Chicago and Pittsburgh and New York will be given an opportunity to see the Japanese in action on the courts before the national championships, and after the titular tournament Kumagata and Mikami return to the Pacific coast by another route, playing occasional matches prior to departing for Japan.

Apparently this will be the only invasion of foreign athletes during the coming season and because of the prominence and ability of the Japanese should attract far more than usual attention to the leading court tournaments of the summer, since both Kumagata and Mikami have several times demonstrated their ability to hold their own across the net with the ranking players of the United States.

PLANK IS SOLE A. L. SURVIVOR

Only Pitcher Who Has Stayed in Big Leagues Since Start of Circuit.

With the opening of this season's campaign the American league entered into its seventeenth season as an organization and its fifteenth season as a "reconstructed" major league body. Of the hurlers who made up the pitching staffs of the different teams which were then included in the circuit (1900-1901) just three are in business today, and only one is doing duty in the American league at this writing. Edward Plank is the sole survivor of that grand old squad of hurlers, the last of the Mohicans, the one lone twister left of that brilliant galaxy of moundmen who were in the American league during its infantile years.

Outside of Eddie Plank just two pitchers who were stars in the circuit presided over by R. B. Johnson are doing duty in organized baseball. They are George D. White and Joe McGinnity. Clark Griffith was the dean of Charles Comiskey's pitching staff in the early years of the American league, is very much in the spotlight as manager of the Washington club. Cy Young is raising chickens down on the farm, in Gilmore, Tuscarawas county, O. Win Mercer, Bill Reidy, Virgil Garvin and Pete Dowling have passed over the great divide.

"SWIPE" THE FOUL BALLS.

Fans in Two American League Cities Pile Them.

Only in two American league cities do fans steal the baseballs that are fouled into the grand stands and bleachers, says a sporting writer. One city is St. Louis, the other New York. It is difficult to account for this petty thievery. Presumably a man who would rather go to jail than risk a dime from a neighbor has no compunctions whatever about appropriating a league baseball that is worth ten times a dime.

The cost of the balls lost to grand stand spectators in the course of a season in New York is large.

The whole thing seems to simmer down to the assumption that the world likes to fool a policeman, particularly if he is a special officer. The jubilation of a sane citizen making away with a baseball that doesn't belong to him is only equaled by the ludicrous spectacle of a special officer trying to recover it.

EDDIE MAHAN HAS PRO SPIRIT

Asks Bonus For Signing With Cleveland, Says Report.

Eddie Mahan, Harvard's crack varsity pitcher, is an amateur, but he has the professional attitude if what comes from Boston is true.

According to the story, a "representative of Mahan" approached Leo Fohl, manager of the Cleveland club, and asked what bonus he would give Mahan for signing a contract.

"Bonus?" replied Fohl. "Get off your feet. Tell this Mahan person to come out to the ball park and let me look him over. If he's any good I'll give him a trial; if he isn't I'll take back the uniform."

Mahan may be a fine college pitcher, but there have been other fine college pitchers who turned out to be bloomers in flat company.

Collegian For Oldring's Job.

Lanning, the Wesleyan pitcher, has taken the place of Rube Oldring in the Philadelphia outfield. Lanning has been making good both at bat and in the field. Rowe, the University of Maine third sacker, is also doing well.

Infantile Paralysis.

Little Talks on Health and Hygiene by Dr. D. Commissioner of Health.

Infantile Paralysis is a disease that affects the nervous system. It often causes death, and again, the acute stage frequently subsides and leaves paralysis of one or more of the limbs that heretofore has often lasted through life.

Today we do not know what causes the disease, therefore preventive measures must be broad. You must keep the children away from insect life, such as flies, mosquitoes, fleas, bed bugs, ticks, ants, lice, etc. You should see that all rats and mice around the building are killed. Fat cats and dogs should be washed with a two per cent. carbolic acid solution to destroy insect life. Everything should be kept clean about the home, including the children's bodies and clothing.

Children should be fed well but not indulged in large quantities of water, ice cream or other frozen dishes on a full stomach, as that will often cause acute indigestion and render them susceptible to other diseases. In other words, the digestion should be guarded carefully.

Children should have plenty of sleep. They should not associate with other children that are sick. Their homes should be well ventilated and screened from flies, etc., and any flies that happen to enter the building should be killed. All foodstuffs should be protected from flies, dust, etc. Fruit and vegetables eaten raw should be thoroughly washed in clean water. Children's mouths should be rinsed out and their throats gargled with Dobell's solution after each meal. If the children are too young to rinse or gargle, wash the mouth with a piece of fabric, muslin or linen. That has been dipped in Dobell's solution.

Children should be kept out of crowded places and to crowded halls of entertainment during our present threat with epidemic.

The youngsters should not be permitted to sit on the damp ground or have their bodies thoroughly chilled, day or night. They should not bathe in cold water until their circulation is interfered with and they become chilly and blue.

NEW HARDENING METAL

Discovered Which Will Revolutionize Armor Plate Making.

A new metal which will harden and toughen steel to a greater degree than tungsten or molybdenum and which makes cast iron harder than ordinary ranch of Jesse J. Haller, near Cortez, Col.

A test of the new metal has been made at Denver and the assayer states there is nothing like it so far as he knows. The ore is gray and is marked with red spots. It is composed of silica with aluminum oxide, iron, vanadium, potash, sodium, arsenic, uranium and titanium as parts of its composition.

Mr. Haller has been using a combination of one and one-half per cent. of the ore in treating cast iron and has succeeded in increasing its strength from 33 to 80 per cent. He believes the ore increases the strength of steel from 33 to 200 per cent. Experts declare that the discovery will revolutionize the armor plate and armament industries.

School Board Elects Teachers.

At a meeting of the Lower Tyrone township school board held Saturday, teachers for the ensuing term were elected as follows: St. James, Nellie Cunningham; Cochran, Goldie Orban; Spring Grove, Florence Welsh; Hulltown, Ethel Palatier; Quay, Mae McGinnis; Taylor, Nellie Welsh; Gault, Besie Newell.
